# More or less

Connect the spaceships to the planets and the rockets to the stars.

1 more

A diagram showing five spaceships on the left and five planets on the right. Lines connect each spaceship to a planet that is exactly 1 more than the number on the spaceship. The connections are: 49 to 50, 11 to 12, 40 to 41, 33 to 34, and 28 to 29.

10 more

A diagram showing five spaceships on the left and five planets on the right. Lines connect each spaceship to a planet that is exactly 10 more than the number on the spaceship. The connections are: 49 to 59, 11 to 21, 40 to 50, 33 to 43, and 28 to 38.

1 less

A diagram showing five rockets on the left and five stars on the right. Lines connect each rocket to a star that is exactly 1 less than the number on the rocket. The connections are: 49 to 48, 11 to 10, 40 to 39, 33 to 32, and 28 to 27.

10 less

A diagram showing five rockets on the left and five stars on the right. Lines connect each rocket to a star that is exactly 10 less than the number on the rocket. The connections are: 49 to 39, 11 to 1, 40 to 30, 33 to 23, and 28 to 18.

Discuss the changes for each set of numbers. Point out to children that, in some cases, both the tens digit and the ones digit change. Remind children that *more* means they must add and that *less* means they must subtract.
