

Adding coins

Use three coins each time.
How many different totals can you make?

$$10\text{¢} + 1\text{¢} + 1\text{¢} = \boxed{12\text{¢}}$$

$$25\text{¢} + 5\text{¢} + 1\text{¢} = \boxed{31\text{¢}}$$

Adding coins

Use three coins each time.
How many different totals can you make?

$$10\text{¢} + 1\text{¢} + 1\text{¢} = 12\text{¢}$$

$$25\text{¢} + 5\text{¢} + 1\text{¢} = 31\text{¢}$$

Suggested totals only.

$$25\text{¢} + 1\text{¢} + 1\text{¢} = 27\text{¢}$$

$$1\text{¢} + 5\text{¢} + 10\text{¢} = 16\text{¢}$$

$$10\text{¢} + 10\text{¢} + 10\text{¢} = 30\text{¢}$$

Encourage children to keep track of the different combinations of coins that they use. In this way, they can avoid repeating combinations.
