# Make a reading tree

Keep track of the books you read by creating a reading tree. Create a trunk with branches and add each book as a leaf. Wait till you see how much you've accomplished!

What you'll need

* A large sheet of paper or poster board
* Brown, green, red, and yellow construction paper (or colored pens or markers)
* Pen or marker
* Scissors
* Tape
* Glue
* Ziplock bag
* Tacks

How to do it

* Cut out a trunk and branches for the tree with the brown construction paper.
* Tape the tree to a wall where you can reach the branches.
* Cut out leaves with the green, red and yellow construction paper.
* Fill out the first leaf with a book you've read recently. Include the title of the book, the author, and the date when the book was read.
* Glue the leaf onto one of the branches.
* Place the empty leaves in a ziplock bag with a pen. You can keep the bag next to the tree. Every time you read a book, fill out a leaf and add it to your reading tree.

Questions to answer

What's your favorite book?

_____

Is there a story that you can imagine a different ending for? What would the new ending be?

_____
